HEAD, HEART AND HANDS CURRICULUM

Burford CofE Primary School: Class 1

HEART AND HANDS

Flourishes –

To be responsible and respectful.

Children will have the opportunity to show **respect** towards others in our class, when discussing our feelings and our beliefs. We will be **responsible** for our own learning and for the way we choose to treat others. We will also learn to understand how different cultures hold different beliefs and we are **responsible** for exploring these so that we can understand and **respect** them.

Our Spiritual Development big questions are:

- What is your favourite colour and why?
- What sounds do you like to listen to?

British Values

Mutual respect – This half-term we will show respect and tolerance as we explore a variety of different festivals and celebrations from within other cultures.

Enrichment

Trips, visitors and experiences

This half-term we warmly welcome any family/friends to visit us in class 1 to talk about their faith and religion, including any celebrations you may particularly enjoy!

Class books

- Ava's Poppy – Marcus Pfister
- Sparks in the Sky – Twinkl original
- Hetty's Hannakah – Twinkl original
- Rameena's Ramadan – Twinkl original
- Dragon's in the City – Twinkl original

Autumn 2 – Cultural Celebrations!

HEAD

Curriculum

As Writers we will: explore the circular tales of The Birthday Party and We're Going on an Elf Hunt using Talk 4 Writing, which we will then innovate to make our own!

As Readers we will: read and appreciate a variety of Twinkl original whole class texts to help us develop a deeper knowledge of other cultures and festivals they participate in. We will also read Sparks in the Sky and Ava's Poppy to deepen our understanding of celebrations we commemorate too.

As Mathematicians we will: develop our understanding of….

YR – cementing a deep understanding of numbers up to 5, introducing part-whole relationships, and expanding counting vocabulary.

Y1 – deepening our number sense, subitising, and part-whole structures, as well as continuing to explore addition and subtraction within 10.

As Scientists we will: learn about seasonal changes as they occur throughout the year and the weather too!

As Historians we will: learn about and understand the origins of celebrations such as Remembrance and Bonfire Night and the stories of significant people linked to these events, such as Guy Fawkes and Captain Sir Tom Moore.

As Artists/Design Technologists we will: explore materials, tools and techniques, experimenting with colour and texture to create bonfire collages and edible treats and still life poppy paintings. We will also make artefacts such as Torah scrolls and taste festival food from different faiths!

In PE we will: continue our sessions with Miss Mason on a Monday afternoon, which will focus on fundamental skills. We will also have a session with a coach on a Friday afternoon. In these sessions, we will work on improving our ball skills.

In RE and PSHE we will: focus on improving our cultural awareness. We will think about the following question: 'Why do we celebrate Christmas?'

In Computing we will: start to explore technology and introduce the Purple Mash software.
